

Worship Goals

While in worship with your elementary children...

1. Relax. Please don't worry about quiet kid noises, whispers, or giggles. We're all family here! We hope you'll enter into the opportunities that arise to answer their questions and show them how to worship.

2. Stay together. We ask that while kids are learning about worship from the adults around them, they remain physically with their parent or another trusted adult in a safe place in the auditorium. Your child's safety is important to us.

3. Let's engage! This is a great time for our kids to learn to praise God. While with you, let's encourage our kids to stand, sing, or even sit quietly watching if they prefer. For those that want to dance/move as part of their worship experience, feel free to claim a couple of extra chairs on your row for more room. As long as they are with you and focused on worshipping the Lord, they'll be learning and growing. When we're all engaged, the rest of our Waters Family can worship freely as well.
